<https://www.hse.ru/staff/asnesterov>

Interests: theory, microeconomics, game theory, mechanisms

I have been running NIS for more than five years

I head the game theory laboratory

Deputy Dean for Science

Objectives of the Research Seminar

- To teach how to prepare and present a research paper
- Objectives of the research work:
 - don't fail, get a diploma
 - (for the first time) try
 - work seriously
 - work independently
 - do research
 - acquire skills useful outside of science:
 - search for reliable information
 - conducting work based on best practices
 - clear presentation of the work

Work formats

- Research work
 - performed to consolidate and demonstrate knowledge and skills
- Future article
 - is performed to search for new knowledge
- Coursework in the form of a project
 - is carried out in the format of a consulting project
- Research paper format (others are similar)
 - Introduction: research question, motivation
 - Literature review
 - Main part (theory/empirical), results
 - Interpretation of results, correlation with literature
 - Conclusions

What's important in work (and what's not)

- Important:
 - clarity of presentation
 - the question is formulated and motivated, and an answer is given to it
 - correctness of using methods
 - novelty / precise correlation with literature
 - sequence of thought and presentation
 - absence of gaps (if the question begs to be answered but remains unanswered)
 - lack of water
 - accuracy
 - literacy
- Doesn't matter:
 - formalities (number of pages, margins, subject/goals/tasks)

Where to look for advisors

- <http://scem.spb.hse.ru/persons> – Profs of the School of Economics and Management
- (<http://scem.spb.hse.ru/econ/persons> -- Profs of the Department of Economics)
- [https://iri.hse.ru/tenure faculty](https://iri.hse.ru/tenure_faculty) -- HSE employees hired internationally
- <https://www.hse.ru/ru/interlabs#labs> – employees of international laboratories

How to choose advisors

- Check out past work under their supervision
 - on personal pages
 - in the database of diploma theses
- Ratings
 - REPEC rating of researchers in Economics
Top 25% authors in Russia, all publications years
<https://ideas.repec.org/top/top.russia.html#authors10>
 - Top 25% institutions in Russia, all authors, all publication years
<https://ideas.repec.org/top/top.russia.html#inst>
 - bonuses for publications: https://www.hse.ru/science/scifund/bonus_2024 | 2025
 - international staff, laboratories:
 - https://iri.hse.ru/tenure_faculty
 - <https://game.hse.ru/>, <https://ces.hse.ru/>, <https://spb.hse.ru/scem/sec/>
- Articles
 - Journal rankings (HSE, [handelsblatt](#), [ABS](#), etc.)
 - Journal citation indices (Scopus, Web of Science)

Misc.

- The diploma can be completed in a group of 2 students
 - assessment: you need to either do all the steps together or separate them
- The diploma is not necessarily a continuation of the what you did in the 1st year (but desirable)
- Forgery and plagiarism **are not allowed** (translation, paraphrase, self-plagiarism from previous texts)
 - No
 - never
 - don't even think about it
- Follow the rules of business correspondence
- What should I find out from my advisor? Work format, language, main paper/s, prerequisites, schedule

Homework

- Read materials about students' coursework and theses:
 - about the dangers
 - types of violations
 - plagiarism
 - checking papers for plagiarism
 - student and academic standards
 - NIS
 - Guidelines
- Come up with questions
- Bring 1 paper
